Vegas Video Poker

1. Winning combinations (two pair or better)
2. Four cards to a straight flush
3. High pair (jacks or better)
4. Four cards to a flush
5. Low pair (exception: 10, 10, J, Q, K--discard one 10)
6. Four cards to an open-ended straight
7. Four high cards (exception: three cards to a straight flush)
8. Three high cards (exception: hold two suited high cards)
9. Two high cards
10. One high card

If your hand does not contain any of the combinations listed above, discard all five cards, and draw a new hand.

(See reverse side for instructions)

Vegas Video Poker

Here is an example of how to use this card.
Suppose your initial draw is:

8♥ 9♣ 10♦ J♠ J♣

Your two options are to hold the open-ended straight

8♥ 9♣ 10♦ J♠ or to hold the high pair J♠ J♣

The correct choice is to hold the high pair (third in the list), as opposed to the open-ended straight (sixth in the list).
